About Us

Fruit-ING is a production facility in Indonesia focusing on processed fruit and related items for the beverage, dairy, health and functional products industries. The company operates on investing in processed bulk fruit products, and in aseptic packaging.

Service

Equipped with the latest technology and by decades of industry know-how, the Fruit-ING operation is set to manufacture high quality Tropical fruits, Pulps, Juices, and Frozen products according to U.S., European, and Japanese standard. We are expectable in tailor-made functional fruit and vegetable products, as well as standard products, all of which are 100% natural and made from the freshest raw material possible, with careful attention to environmental concerns.

Quality

With our contracted plantations in the country, Fruit-ING employs qualified Food Technologists and Agronomic Engineers to ensure that only the highest grade natural fruit and vegetable crops, that comprised of selected varieties attuned market needs are grown and harvested for our production. From soil and climate analysis, to bulk packaging and seamless logistic, we monitor every step along our product journey in order to ensure that only the best is delivered on each and every time.
